

LUVITRA

Luvitra Ultra Cavitation

Non-Invasive Treatment for Localized Fat & Cellulite

"The Ultra Cavitation treatment safely and effectively targets localized fat deposits and reduces body circumference for successful body contouring."

Ultra-Cavitation System

Clinical Benefits

- Removes fat non-invasively
- Tightens the skin and improves body contour
- Measurable, repeatable and delegatble
- Pain-free treatment
- No down time and no recuperation

Ultra-Cavitation System

Practice Benefits

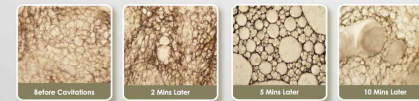

- Cost-effective and affordable workstation
- No consumables or disposals
- Safe and effective

“An extremely effective and non-invasive method
At this frequency, the Cavitation phenomenon, never applied by Aesthetic Medicine until now, destroys fat cells and emulsificates fat tissues favoring their elimination through normal organic tracks.”

Cavitation Collapse Near a Surface

- Microscopic Observation of Human Fat Tissue from Abdomen under the Cavitation Effect.

Specifications

- Model Name : LUVITRA
- Power InPut : AC100~230V, 50/60Hz
- Safety Class : Class 1, Type B
- Dimensions(cm) : 95(H)*48(W)*57(D)
- Weight : 20Kg
- Ultrasonic Frequency : 40KHz
- Output Power : 45Watt
- User Interface : 5.7inch LCD & Touch Screen
